ABOUT

MERN Developer | Next.js

Passionate and motivated developer focused on building scalable, responsive, and user-friendly applications using modern best practices. Always dedicated to learn and tackle complex challenges for continuous growth.

WORK EXPERIENCE

07/2022 - Present

FILÀTO

- Built a full-stack **MERN** tailoring service platform with **Next.js**.
- Integrated **AWS S3** for user reference image uploads and **Stripe** for secure, hassle-free payments and managed global state using **Redux**.
- Developed the **backend** and implemented **WebSockets** for real-time notifications.
- Contributed to the design process by providing reference designs and constructive feedback.

Grazle

<https://grazle.co.in>

- **Identified** and **fixed** UI bugs, improving responsiveness and cross-device consistency.
- Delivered **pixel-perfect** UI aligned with **Figma** designs and enhance performance.
- Implemented **clean code** practices for better maintainability and collaboration.
- Audited **required** API integrations, identified gaps and implemented **missing** APIs to ensure full system functionality.

Habit Coin

- Developed a **challenging** website for a crypto project with **React.js**.
- Translated **Figma** design into a pixel-perfect and responsive UI across all breakpoints.
- **Optimized** UI performance, visuals and adaptability.
- Delivered clean and high quality code while meeting tight **deadlines**.

MLPB Armory

<https://mlpbarmory.com/>

- Contributed to a **Next.js** project for resolving multiple UI/UX **bugs** and **improved** responsiveness across devices, ensuring a consistent user experience on desktop and mobile.
- Developed a custom **minting portal**, enabling users to securely mint NFTs.
- Developed responsive **email templates** for transactional and marketing communications.
- **Collaborated** with developers to deliver efficient and scalable solutions under **tight deadlines**.

Finarch

<https://finarch.co/>

- Developed a high-performance architecture website using **React.js** with a convenient form.
- Utilized **Material UI (MUI)** to create a fully responsive, accessible and flexible user interface aligned with the client's design vision.
- Integrated **RESTful APIs** to dynamically render architectural content, images and project details.
- Ensured **cross-browser compatibility** and **optimized performance** across devices for a seamless user experience.
